

Expanding the World of Possibilities for Aging

LeadingAge Washington is the largest state association representing the continuum of care for our aging population. With over 180 not-for-profit and mission driven member providers we support meaningful choices in long term services and supports for over 50,000 older Washingtonians. Our "Return on Investment" is the health, safety and wellbeing of our residents, our staff, and the communities in which we live.

ADVOCATE

Work with policymakers at local, state and federal levels to provide seniors with the access to services and care they need and deserve.

EDUCATE

Partner with our members and industry leaders to develop continued learning opportunities to ensure seniors are receiving the most up to date care and services.

INNOVATE

Collaborate with state departments, agencies, foundations and communities to create more effective and relevant ways to serve our aging population.

We Serve You Where You Live

Our members serve seniors wherever they call home: Independent Living, Affordable Housing, Adult Day Health, In-Home Care, Assisted Living, Skilled Nursing, and Continuing Care Retirement Communities (CCRCs).
